ABOUT ME

I'm Diana, a Computer Science graduate with a strong interest in web programming and UX design. As a creative person with a keen eye for aesthetics and visual arts, I bring fresh ideas to technology, combining design and functionality. I'm always eager to learn and explore new areas in the field to keep up with industry changes. My adaptability allows me to quickly integrate into new teams, learn different technologies, and adjust to various workflows, making it easy for me to contribute effectively in a dynamic work environment.
